Testing Information

While a longstanding provider of quality products that meet or exceed regulatory requirements with respect to consumer product safety, Complementary Coatings Corporation including Insl-x Products brands, is currently initiating a new comprehensive testing program to document conformity with all regulations, bans and other requirements administered by the Consumer Products Safety Commission(CPSC).

Results from this effort, along with all General Conformity Certificates will be made available at www.insl-xproducts.com/gcc.

Third-Party Laboratory Information
